

## The Code Guy

Roger Papineau

*The Man, The Myth, The Legend*

When you are at the HBA office for a meeting or a training event, did you realize that you were sitting in the Roger Papineau Professional Development Center? The lower level conference room is named in the honor of 2-time Past President and builder, Roger Papineau.

Roger served as HBA President in 1996 and again in 2007. He has made it his mission to work on the local, state and national levels to decipher the building codes and bylaws we use every day. Roger has been a tireless advocate on all things legislative and their effect on us as builders. His hours spent and his miles driven have been many.

In 2008, Executive Officer Kathy Maisonville and the Board of Directors moved to honor Roger for his 25+ years of service to the building industry. On January 31, 2008 a surprise Roast and Toast was held. The Top of the Park was secured, and Roger was duped into showing up for a dinner party in his honor. Generous donations from our members came in to pay for both the dinner and the signage for the Roger Papineau Development Center wall.
